DETAILED ACTION

1. The amendment filed on 02/20/2007 has been received and fully considered.
2. Claims 1-30 are cancelled and claims 31-51 are presented for examination.
3. The Examiner acknowledges the receipt of the Terminal Disclaimed submitted on 04/06/2007 and it has been entered.

Allowable Subject Matter

4. Claims 31-51 are allowed.
- 4.1 The following is an examiner's statement of reasons for allowance: While Colby et al. teaches a system and method for determining and generating candidate view for a database including modeling a measure, a first and second dimension, and Malloy teaches a relational database management of multi-dimensional data, including modeling a first and second dimension, modeling a measure, *neither of these references* taken either alone or in combination with the prior art of record disclose a method implemented at least in part by a computer, the method in combination with first, second, and third tables of data, the first table organizing a first type according to a first attribute and a second attribute, the second table organizing a second type according to a third attribute, the third table organizing a third type according to the first attribute and the third attribute, in particular the steps of: tying the measure to the second dimension by, for each entry of the first dimension, allocating a value of the measure for the entry of the first dimension by: identifying each row in the third table within which a value of the third attribute matches a value of the entry of the first dimension; identifying a value of the first attribute within each identified row in the third table, and, for each identified value of the first attribute; identifying each row in the first table that includes the value of the first attribute, the

first table including no data for the measure; identifying a value of the second attribute within each identified row in the first table; identifying each entry in the second dimension for which a value of the entry of the second dimension matches an identified value of the second attribute; and generating and displaying a data cube that comprises the measure and the first and second dimensions, the data cube being used for analytically modeling data from at least the first and second table, *in combination* with the remaining elements and features of the instant invention, it is for these reasons that the applicant's invention defines over the prior art of record.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
